The Revolution
Functional Knee Brace

Instructions For Use

Please read these instructions completely and carefully before applying this brace. Correct application of the brace is important for proper function.
APPLICATION INFORMATION

Unfasten all straps and fold the hook/loop tabs back against the straps (Fig. A).

While seated on the edge of the chair step through the brace as shown. Position the brace so that the hinge is centered on the knee cap (patella) (Fig. B).

Bend the knee between 30°-45° angle to secure the bottom calf strap. Next, fasten the top thigh strap (Fig. C).

Slightly push the hinge posterior to midline (Fig. D).

Secure the posterior thigh strap (Fig. E).

Draw the hinges slightly forward and secure the front strap directly below the knee (Fig. F).

Secure the remaining calf strap (Fig. G).

Hinge Adjustment Instructions
The brace is shipped with a 10° extension stop installed. If it is requested by a licensed healthcare professional, the stops may be changed.

To change the stops, completely remove both screws from the hinge. Next, slide the hinge cover off.

Insert the new stop, reapply the hinge cover and reinsert and completely tighten both screws. Repeat the procedure on the other hinge. Both hinges must be identical in degree.

Stops Included
- Extension 0°, 10°, 20°, 30° & 40°
- Flexion 45°, 60°, 75° & 90°
(no flexion stops are installed)

The brace is shipped with a 10° extension stop installed. If it is requested by a licensed healthcare professional, the stops may be changed.
